

Meeting King's Lynn Engineering Firms

Â

I was very inspired by my visit to three excellent local engineering firms in Kings Lynn with Sir Henry Bellingham MP; Chalcroft Construction, Shaun Hodgson Engineering Ltd and Dodman Ltd.

The skills and dedication of the people working in these businesses is deeply impressive, building on East Anglia's proud heritage of agricultural engineering. These all represent excellent examples of British Engineering Companies - and it's important we negotiate good trade deals to allow them to continue to thrive!
